

TY TRIPPANY

Director of Customer Operations | Contact Center Leadership | Voice of the Customer

Charlotte, NC • (802) 999-3466 • ty.trippany@gmail.com • [linkedin.com/in/tytrippany](https://www.linkedin.com/in/tytrippany) • tytrippany.github.io

PROFESSIONAL SUMMARY

Director of Customer Operations with 20+ years of progressive leadership across renewable energy, technology, and logistics. Proven expertise in scaling omnichannel contact centers, building high-performance cultures, and delivering measurable CX breakthroughs — including a 59-point NPS turnaround, 68% headcount reduction through centralized operations, \$1.4M in scheduling automation savings, and the transformation of a 150-person, \$10M operation across five teams. Deep background in multi-platform Voice of the Customer strategy (NPS, Google, Glassdoor, BBB, SolarReviews, TrustPilot, EnergySage), workforce management, and regulatory compliance (TCPA/FCC). Pioneer in enterprise AI adoption, featured in an Anthropic customer case study for co-leading agentic deployments that process 19,000+ transactions monthly at 97.5% automation success. Known for building the systems, metrics, and leadership pipelines that make improvements self-sustaining long after launch.

CORE COMPETENCIES

Online Reputation Management	Multi-Site Team Leadership (150+)	Performance Mgmt & Mentorship
Compliance (TCPA, FCC)	AHT / FCR / Occupancy Rate Optimization	AI-Enabled Workflow Design

PROFESSIONAL EXPERIENCE

Director of Customer Operations

Aug 2021 – Present

Freedom Forever | Charlotte, North Carolina

- Oversaw Customer Operations organization of 150 employees across 5 teams — Scheduling, Customer Support, Business Resolutions, HOA, and Voice of the Customer — with a \$10M annual budget; structured as a leader of leaders, managing a layer of managers and supervisors across peak omni-channel contact volumes of 70,000+ monthly.
- Engineered a 59-point NPS turnaround (from -27 to +32) through structured VOC initiatives, root-cause elimination programs, and closed-loop feedback processes; administered NPS surveys in partnership with finance company partners across a shared customer base.
- Drove comprehensive online reputation management across Google, Glassdoor, BBB, SolarReviews, TrustPilot, and EnergySage — raising Google score from 3.3 to 4.3 and Glassdoor from 3.2 to 4.1; accumulated more BBB reviews than all major solar competitors combined.
- Built a centralized reporting structure that reduced branch support headcount by 68% — from 2.2 to 0.7 heads per branch — while simultaneously expanding coverage and improving quality.
- Automated scheduling workflows and launched a customer self-scheduling system for solar-related events, driving a 77% reduction in labor resources and \$1.4M in net annual savings.

- Designed and deployed enterprise mentorship, performance evaluation, and KPI frameworks adopted company-wide; created measurable supervisory pipeline growth.
- Negotiated and managed vendor contracts for omni-channel platform providers and two offshore BPO centers (Philippines and Mexico); led Quarterly Business Reviews (QBRs) to drive performance accountability, SLA adherence, and continuous improvement across all vendor partnerships.
- Co-led multiple telephony platform rollouts and omni-channel (email and live chat) implementations in partnership with a direct-report Program Manager; oversaw vendor selection, configuration, staff training, and go-live across a 150-person, multi-team operation.
- Partnered with Program Management to maintain full TCPA and FCC compliance across all contact channels, reducing regulatory exposure across a high-volume, multi-state operation.
- Co-led AI strategy and implementation (business vision and process design) in partnership with VP of Software, deploying Anthropic Claude Agent SDK across permitting and customer support — featured in an Anthropic customer case study (claude.com/customers/freedom-forever); achieved 97.5% automation success on permit workflows (~19,000 emails/month, 71% fully automated) and 25% initial AI deflection rate in Customer Support.
- Leveraged Dialpad, Zendesk, and Power BI to build real-time operational dashboards, improve FCR, and reduce average handle time across a multi-channel support environment.
- Served as company point person for media relations and crisis communications; personally managed 40+ media requests from local and regional news outlets and led cross-functional response during high-visibility customer escalations and operational incidents.

Senior Manager, Scheduling

Apr 2021 – Aug 2021

Freedom Forever | Charlotte, North Carolina

- Directed national scheduling operations for solar installations; optimized technician utilization and appointment accuracy across high-volume workstreams.
- Implemented data-driven capacity planning and resource forecasting, reducing backlogs and improving SLA compliance within the first 60 days.

Manager of Scheduling

Jul 2017 – Apr 2021

Tesla, Inc. | Las Vegas, Nevada

- Owned \$6M annual budget managing multi-state scheduling operations supporting residential solar installations; operated as a leader of leaders, directly managing 4 supervisors who each led teams totaling 40+ staff across multiple time zones.
- Drove process standardization that reduced scheduling rework by 25%+ and raised on-time install rates by 18%, directly improving customer experience at scale.
- Partnered cross-functionally with Engineering, Sales, and Service teams to synchronize installation timelines and customer communications.

Scheduling Supervisor → Associate Manager

Apr 2015 – Jul 2017

Tesla, Inc. | Las Vegas, Nevada

- Earned two promotions within the same scheduling team in under three years, advancing from Supervisor to Associate Manager based on team performance and operational results.
- Developed dashboards tracking productivity, SLA adherence, and scheduling error trends that became standard reporting across the team.

Rail Traffic Controller (Dispatcher)

Oct 2008 – Sep 2014

Genesee & Wyoming Inc. | St. Albans, Vermont

- Coordinated national rail logistics in compliance with Federal Railroad Administration (FRA) regulations; directed train movements, monitored track usage, and optimized resource allocation.
- Developed crisis-management and communication protocols for time-sensitive, high-stakes operational environments.

Diesel Mechanic / Platoon Sergeant | Sergeant (E-5)

Nov 2004 – Sep 2008

United States Marine Corps | Active Duty | Honorable Discharge

- Achieved the rank of Sergeant (E-5); led maintenance operations as a leader of leaders, managing junior NCOs and their teams across vehicle readiness programs; earned multiple commendations for leadership and performance under pressure.
